**Dross Processing Facilities**

# Investment Opportunity

## Executive Summary

Tawteen's Chemicals and Metals Cluster covers products and services that would support further localization of the petrochemical, manufacturing & sustainability sector in Qatar and would cater to the requirements by Energy Sector Companies.

This Tawteen E-Brochure presents the opportunity for investors to design, supply, fabrication, packing, delivery, testing and commissioning and establish a Dross Processing.

In essence, Tawteen aspires for the Investor to develop the following local capabilities:

- Set-up a facility Dross Processing facility inside the premises of Company (Option A) OR Outside the premises of Company in Qatar (Option B) to process Aluminium dross.
- Establish logistical infrastructure to transport and store feedstock (Dross) and recovered products.
- Adopt technological advancements to improve the process and recovery.
- Dispose / recycle of all by-products resulting in the conversion residue, slag, ash in accordance with the local laws and permits of all applicable jurisdictions by considering circularity.

To support the investment opportunity, the Contracting Entity Qatalum has jointly released, with this Investor Pack, an RfP wherein the Commitment Value shall correspond to maximum Committed Volume of 7000 MT per year for ten years the whole Contract duration.

In addition, Tawteen will provide various incentives in infrastructure and supplier development as support to establishment.

Tawteen will also be conducting briefing sessions that will be communicated in the future to fully align on the process of evaluation and expectations of this opportunity.
